

CENTRAL NEW JERSEY MULTIPLE MYELOMA SUPPORT GROUP

RECAP FOR OCTOBER 8, 2025 VIRTUAL MEETING

There were 28 members at this virtual meeting, and we welcomed 1 new member

Guest Speaker: Brian McMahon, founder and creator of SparkCures

- SparkCures - “Through our unique collaboration with the myeloma community, hospitals, and pharmaceutical companies, SparkCures makes it easy for myeloma patients to find, understand and join eligible clinical trials”
- Our clinical trial matching service is always free for patients. As a for-profit company, our services are supported through partnerships with hospitals and pharmaceutical companies. These companies provide us with financial support as well as accurate, patient-friendly information on their clinical trials that oftentimes is not publicly available elsewhere.”
- Brian’s presentation is always informative, interesting, and provided the group with a clear understanding of Clinical Trials.
- SparkCures is now a part of the International Myeloma Foundation <https://www.myeloma.org/sparkcures/>
 - Brian suggests using SparkCures directly through their website or the IMF, but it is better to stay with one or the other when using this clinical trial service
- **AS ALWAYS, THIS INFORMATION IS FOR YOU TO USE AND DISCUSS WITH YOUR HEALTH CARE TEAM**
