

CENTRAL NEW JERSEY MULTIPLE MYELOMA SUPPORT GROUP

JUNE 3 2026

MEETING HIGHLIGHTS

Last night's support group session with Anne Marie Robbins, estate planning attorney, was a resounding success! Highly informative, interactive, and deeply educational, the presentation delivered practical insights on wills, trusts, incapacity planning, and protecting loved ones—sparking thoughtful questions and valuable discussions. A powerful reminder that proactive estate planning brings clarity and peace of mind for every stage of life.

This meeting served to provide valuable information to everyone, regardless of your wealth or health status. Each component of last night's presentation served as a reminder that, every so often, we should conduct a self-analysis and asked the question; am I prepared that best way(s) possible should unexpected crisis' occur?

We had 27 attendees during our virtual meeting, and I can't thank you all enough for your participation which made for a great meeting!
