

Frank's meeting thoughts

August 5, 2026

We had an exceptional meeting last night with 27 attendees discussing a variety of different topics during our open meeting. There was no guest speaker, or agenda, just an opportunity to check in with everyone and get updates, and answer questions during this productive session. Open meetings are very useful and allows for just about any topic relative to a patient, family member or care partners to discuss in a comfortable, inclusive and supportive environment.

Thank you to everyone that continues to support us in this very important cause!
